REQUIREMENTS

Dear Reader,

I want us to look into this important topic and do something about it. From the very day a person is born, the issue of requirements come into play. Parents are told what the child will require.

When the child starts schooling, the school will also requires of the parents certain things which parents have to provide, and often do so with joy. Throughout your entire education, requirements will be imposed on you as you go along.

You cannot function as a human being when you don't meet requirements of food water and so on. You cannot open a bank account if you don't meet their requirements. Virtually everything that can be done require things in order to function or work.

When looking for a job they will require of you things when getting married requirements are needed, when travelling requirements are provided by you that is intercontinental, when going for a mortgage or renting a place, requirements are demanded.

In everything, there are bound to be requirements. Now the question is what about God?

Has he also got requirements? Have you ever asked yourself about that? In all these we need to meet the requirements. You must also ask yourself, have I met God's requirements? His are just simple. Take His Son Jesus Christ of Nazareth as your Lord and saviour, and allow him to take control over your life. You will also need to relate with Jesus Christ and try to live for Him, in all these you will need help to know how to relate with Jesus Christ. So for you to understand God's requirements better you need to find a church and attend.
