REGISTER

Dear Reader,

This may set you into thinking, but it is a fact. The very day that you were born, you were registered whether you liked it or not. Not even your parents can change the fact that you were born in that hospital. Because your mother had to be registered that she was pregnant on such and such a time and she can't deny that.

When you start schooling the school has to register you as part of their pupils, the school must ensure your name is in the register otherwise you will not be allowed to attend that school that is why every morning they use the register.

When you legalise your marriage, your names must be on the register. When you are working your name must be on the company register to confirm that you work there, so when they are paying they wouldn't come to you and ask whether you work there or not, as far as your name is in the book they will pay you. When you are a citizen or you live within the nation legally your name must be on the government register, to confirm that you are part of them or live within the nation .

When you go to the hospital you cannot use someone elses name otherwise you will be given a wrong medication. If you are travelling they need to register that you have left and at the other side they need to register you that you have entered, when you arrive there. Even if you are a disabled your name must be in the governemnt register, failure to do so will means you cannot have support. Humans need to register almost everything so that they can be better governed .

Now have you ever wondered and asked yourself this question, is my name registered in God's books?

We must not say later, don't allow had I known to factor in. Because God doesn't want any surprises, He has made his plans known through his Son Jesus Christ of Nazareth. Why don't you begin your walk with him. For you to be able to understand Him and relate with Him better, why don't you look for a church and attend. They will be in a good position to elaborate and explain.
